**ORDER RE PROCEDURE  
FOR DETERMINING  
REASONABLE ATTORNEY'S  
FEES AND COSTS**

17  
18  
19

In light of the accompanying order regarding defendants' motion for attorney's fees, defendants are entitled to an award of fees. To determine the proper amount, the parties should follow this procedure:

1. No later than **JULY 1, 2010**, defendants' attorneys must file and serve a detailed declaration, organized by discrete projects, breaking down all attorney and paralegal time sought to be recovered. For each project, there must be a detailed description of the work, giving the date, hours expended, attorney name, and task for each work entry, in chronological order. A "project" means a deposition, a motion, a witness interview, and so forth. It does not mean generalized statements like "trial preparation" or "attended trial." It includes discrete items like "prepare supplemental trial brief on issue X." The following is an example of time collected by a project.

## PROJECT: ABC DEPOSITION (2 DAYS IN FRESNO)

	DATE	TIME-KEEPER	DESCRIPTION	HOURS X	RATE =	FEE
4	01-08-01	XYZ	Assemble and photocopy exhibits for use in deposition.	2.0	\$100	\$200
5	01-09-01	RST	Review evidence and prepare to examine ABC at deposition.	4.5	\$200	\$900
6	01-10-01	XYZ	Research issue of work-product privilege asserted by deponent.	1.5	\$100	\$150
7	01-11-01	RST	Prepare for and take deposition.	8.5	\$200	\$1700
8	01-12-01	RST	Prepare for and take deposition.	<u>7.0</u>	\$200	<u>\$1400</u>
9			Project Total:	<u>23.5</u>		<u>\$4350</u>

2. All entries for a given project must be presented chronologically one after the other, *i.e.*, uninterrupted by other projects, so that the timeline for each project can be readily grasped. Entries can be rounded to the nearest quarter-hour and should be net of write-down for inefficiency or other cause. Please show the sub-totals for hours and fees per project, as in the example above, and show grand totals for all projects combined at the end. Include only entries for which compensation is sought, *i.e.*, after application of “billing judgment.” For each project, the declaration must further state, in percentage terms, the proportion of the project directed at issues for which fees are awardable and must justify the percentage. This percentage should then be applied against the project total to isolate the recoverable portion (a step not shown in the example above).

3. A separate summary chart of total time and fees sought per individual timekeeper (not broken down by project) should also be shown at the end of the declaration. This cross-tabulation will help illuminate all timekeepers' respective workloads and roles in the overall case.

1       4.     The declaration must also set forth (a) the qualifications, experience and role of  
2 each attorney or paralegal for whom fees are sought; (b) the normal rate ordinarily charged for  
3 each in the relevant time period; (c) how the rates were comparable to prevailing rates in the  
4 community for like-skilled professionals; and (d) proof that “billing judgment” was exercised.  
5 On the latter point, as before, the declaration should describe adjustments made to eliminate  
6 duplication, excess, associate-turnover expense, and so forth. These adjustments need not be  
7 itemized but totals for the amount deleted per timekeeper should be stated. The declaration must  
8 identify the records used to compile the entries and, specifically, state whether and the extent to  
9 which the records were contemporaneous versus retroactively prepared. It must state the extent to  
10 which any entries include estimates (and what any estimates were based on). Estimates and/or  
11 use of retroactively-made records may or may not be allowed, depending on the facts and  
12 circumstances.

13       5.     If the opposing party doubts the accuracy of the declaration, then the moving party  
14 must immediately produce the original underlying time records for inspection upon request.  
15 The opposing party must then file and serve any opposition. In this case, the opposition will be  
16 due **FOURTEEN CALENDAR DAYS** after defendants’ detailed declaration is filed. If the opposing  
17 party contends that any item or project was excessive, then the opposition must explain why and  
18 provide a declaration setting forth completely all time expended by the opposing party on the  
19 same and on similar projects, in the same format described above, so that symmetry may be  
20 considered, making available the underlying records for inspection if requested. If any billing  
21 rates are challenged, then the opposition must state the billing rates charged to the opposing party  
22 for all professionals representing the opposing party in the case and their experience levels. The  
23 opposing declaration must also state, as to each project, the percentage of the project the  
24 opposition contends was directed at issues on which fees are awardable, stating reasons for the  
25 percentage. This percentage should then be applied against the project total to isolate the  
26 recoverable portion.

27       6.     The opposing submissions may not simply attack the numbers in the application.  
28 It must also set forth a counter-analysis. The counter-analysis should be in the same format

1 required of the applicant, arriving at a final number. The opposition must clearly identify each  
2 line item in the application challenged as excessive, improper or otherwise unrecoverable and  
3 explain why. The opposition, for example, may annotate (legible handwriting will be acceptable)  
4 the applicant's declaration to isolate the precise numbers at issue.

5       7.     With the benefit of both sides' filings, representatives of the parties with final  
6 decision authority shall meet in person and confer to try to resolve all differences as to the  
7 amount. If no agreement is reached, the moving party must file and serve a declaration showing  
8 full compliance with this paragraph, explaining when, where and who met, their decision  
9 authority, how long they met, what documents were reviewed together, and the principal points of  
10 disagreement. This must be done within **28 CALENDAR DAYS** of the filing of movant's detailed  
11 declaration.

12       8.     If no agreement is reached, a special master shall be appointed. If the parties  
13 cannot agree on a special master, then the Court shall select a special master. The parties must so  
14 advise the Court on this within **28 CALENDAR DAYS** of the filing of movant's detailed declaration.

15       9.     The special master shall have all the powers set forth in FRCP 53(c) and  
16 FRCP 54(d)(2)(D). The parties shall provide the special master with copies of all motion papers  
17 and other documents relevant to this dispute. The special master shall review the briefs and  
18 declarations by the parties on the pending motion, hear argument, and then determine a  
19 reasonable amount to award, including any fees on fees. The special master shall also determine  
20 the extent to which any discovery should be permitted — with the caution that further discovery  
21 should be the exception and not the rule. The special master shall then prepare and file a report  
22 on recommended findings and amount.

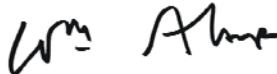

23       10.    Absent any supplementation allowed by the special master, the foregoing  
24 submissions (together with the briefs already filed) shall be the entire record for the motion.  
25 There will be no replies unless allowed later by the special master. Any further submissions for  
26 the special master's use should not be filed with the Court. If objections are later made to the  
27 special master's report, the objecting party must file a declaration submitting to the Court a  
28 complete appendix of relevant communications with the special master.

1           11. The Court will allocate the fees of the special master in a fair and reasonable  
2 manner, taking into account the reasonableness of the parties' respective positions and the special  
3 master's recommendation in this regard. If the movant must pay, then the special master's  
4 compensation shall be *deducted* from the attorney's fee award. If the opposing party must pay the  
5 special master, then it shall pay the special master *and* pay the award. The Court will, however,  
6 reserve final judgment on allocation of the expense of the special master until a final  
7 determination of the fee issue. A final award shall then be entered.

8           12. Costs will be determined in strict compliance with the local rules. If a review is  
9 sought regarding taxable costs, then the issue may also be referred to a special master (or may  
10 not).

11  
12           **IT IS SO ORDERED.**
